REHABILITATION
Bure Standard/S Gas StandTall Walker

“AN INVESTMENT IN STAFF WELL BEING”

The Bure Standard Gas StandTall Walker is suitable for the caregiver who needs a quality walker that is capable of fast and convenient height adjustment. Also available in a narrower version that is specially adapted to work in confined spaces, the Bure S.

Bure Standard Gas and Bure S Gas are also available in two other versions: Electric and Manual.

**Accessories**

- **Drip holder with attachment**
  RHGA-56-338
  Allows the patient to move freely in a room, on the ward or at home. Supplied with attachment fitting.

- **Hand brake kit - Twin brakes**
  RHGA-56-326-0 Bure Standard, Bure S
  Adds a hand brake to the handgrip so that the user is able to halt movement during walking exercises. The rear casters also have directional locks for extra safety/assistance. The one-handed brake is available on either left- or right-hand side.

- **Hand brake kit - One-handed brake**
  RHGA-56-326-1 Bure Standard
  Adds a hand brake to the handgrip so that the user is able to halt movement during walking exercises. The rear casters also have directional locks for extra safety/assistance. The one-handed brake is available on either left- or right-hand side.

- **Forearm side support**
  RHGA-56-337
  Prevents arms from sliding from armrest cushions. Steplessly adjustable along the StandTall Walker’s sides to further stabilise walking.

- **Oxygen bottle attachment**
  RHGA-56-336
  Means that a patient is no longer confined to bed.

- **Footplate - Steel**
  RHGA-56-333 Bure Std
  RHGA-56-339 Bure S
  A flexible alternative when moving a patient a short distance.

- **Footplate - Aluminium**
  RHGA-56-333-1 Short
  RHGA-56-383 Long (Std only)

- **Height adapter**
  RHGA-56-327
  Provides extra support for tall users and raises the armrest surface by 70 mm.

- **Soft basket with attachment**
  RHGA-56-389
  Basket with attachment has enough room for all the important stuff.

- **Stirrup**
  RHGA-56-331
  Acts as a counter weight and provides extra stability and safety when the StandTall Walker is used for stand up assistance.

- **Wheels with directional lock**
  RHGA-56-361 125 mm
  RHGA-56-358 100 mm
  RHGA-56-387 75 mm

- **Wheels with brakes**
  RHGA-56-359 125 mm
  RHGA-56-355 100 mm
  RHGA-57-043 75 mm

- **Wheels with brakes**
  RHGA-56-359 125 mm
  RHGA-56-355 100 mm
  RHGA-57-043 75 mm
