

# Neo-Snug

Single Use

- 2 sizes available
- Neonate can be positioned on the side, prone or supine
- Material using the latest non-woven technology
- Providing optimum boundaries
- 2 fixed straps for fixing/security and detachable strap for positioning baby
- Every Neo Snug includes two clip on Velcro tube holders

**Size 1**  
**Small Neonates / Preterm**

**Size 2**  
**Larger / Term**

## Ideal Supported Positioning

The Neo Snug mimics the neonates position when in-utero and so provides a sense of security:

- Flexed
- The head is in the midline, neutral neck
- Shoulder protraction
- Hands to midline/mouth
- Neutral hips and feet
- Boundaries with some freedom of movement
- Tactile input

## Benefits of Supportive Positioning

- Promotes physiologic stability (joint stability, muscular development, tone and alignment)
- Increase O2 Sats and decreases RR and HR
- Promotes deep sleep
- Facilitates different levels of consciousness/arousal
- Promotes neurobehavioral development/stability
- Promotes self-regulation
- Reduces stress
- Frees the hands of the caregiver
- Provides graded input of proprioceptive, tactile and visual stimuli
- May decrease the need of any analgesic and/or sedative

### Ordering Information:

Code	Description / Dimensions	Qty / Box
NSG001C	Disposable Neo-Snug – size 01	50
NSG002C	Disposable Neo-Snug – size 02	50

Minimum quantity 1 box
